Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. The whole point of a national park is to protect it from activities like these. I constantly read about government officials promising they care to protect Canada's nature and then turn around and protect industry over environmental concerns. We are at a turning point in ecological history and I hope Canada can make the right decisions now and sustain its natural world but actions like these destroy that hope.

Thank you
