Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 6:12:03 PM

Dear Minister McKenna,

National Park Reserves should be respected as such period! NOT to gain a profit for the oil and gas industry. We so called "intelligent Humans" have created so much irreversible damage to the global environment already! To continue with this approach, it will only be a matter of time were we don't need any of this resources any longer, because our only protection the ozone layer will be completely ruined, by Human greediness. With that protection gone, Human's and all other Life will be destroyed as well for ever.

More than 350 species of birds have been recorded on the Island, with sixteen species known to breed there. The Island has the world's biggest breeding colony of grey seals.

The Oil and Gas Industry has to stay away from Sable Island National Park Reserve and all surrounding waters in order to protect all Marine Life as well in the Area

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Thank you,

JohannDietsche
