Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: February-08-19 11:00:47 AM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. Park Reserves deserve respect from all Canadians, including Canadian industry, and must be protected from potentially harmful activities. Allowing oil and gas exploration within a National Park Reserve exemplifies Canada's commitment to industrial development and not to marine conservation, at a time when Canada must emerge as a world leader to protect its marine and coastal ecosystems.

The Sable Island National Park Reserve was awarded this status in conservation due to its unique features and the high value Canadians place on this natural area. Allowing potentially destructive activities to occur in the Reserve is a disservice to the planners, policy makers, government scientists and officials, and many stakeholders who invested their resources, passion, and energy toward achieving the Park Reserve designation, and to all Canadians who care for the unique natural areas of our country.

Thank you,

JulieReimer
