Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 11:14:03 AM

Dear Minister McKenna,

Consider this, with oil and gas development contributing to climate change, global warming and the melting of the Arctic ice caps, Sable Island will not exist by the end of this century as the waters rise.

Our planet is at a critical stage where we have to keep fossil fuels in the ground and stop destroying the planet.

Do you want our grandkids to live in a country where there are no natural reserves protected from development?

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Thank you,

KristinaStockwood
