Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. This is an ecologically sensitive Island and is home to the rare existence of wild horses! This is why governments in the past have created National Parks.....to protect them from further development that could harm wildlife and their habitat! I implore you to remember what your duty is as Minister of the Environment ....to protect and save our beautiful lands for others for generations to come!

Thank you,  
Sincerely
