**Subject:** I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.  
**Date:** January-31-19 10:36:02 AM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. This project threatens our fisheries, which bring more revenue to our communities than natural gas will. Furthermore, we need to take climate change seriously and listen to science. According to the IPCC, we need to leave 80% of fossil fuels in the ground in order to prevent a 1.5 degree increase in average global temperatures. The threats of climate change (including increase in storms, flooding and sea level rise) are very real for our coastal communities. We will not stand idly by as our government refuses to find solutions to these global problems. These actions are irresponsible and a pose a threat to our livelihoods.

Thank you,

LindsayWood
