Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 3:28:01 PM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

The fact that you would even consider opening this sensitive area to oil and gas exploration is absolutely appalling. This is a protected area with not only a lengthy history, it has created so much admiration from people because of that history, and brings tourists to Nova Scotia time and time again because of it. The touristic draw is so important to the local economy.

The wild ponies are a unique and endangered legacy of Canada and once they are gone, can never be replaced. They have protected that land by being the wild ponies of Sable Island, they cannot survive anywhere else.

By allowing drilling in the area, you also put a number of other industries and communities, with real people at risk of losing their jobs and exposing them to high level health and well being risks due to the traffic, air pollution and extremely high potential for accidents and leaks. Damages that are unavoidable and irreparable damages.

I ask that you to reconsider and to think of the consequences which will not be of benefit to anyone outside of a pocket full of shareholders.

Thank you,

Leila Krupich
