Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. I know you are aware of the warnings issued by the IPCC.

With only 12 years to get world emissions down to 1.5 degrees, less than the Paris targets, it is unconscionable and unethical to be expanding fossil fuels projects. Canada must have a plan for green infrastructure and end all fossil fuels developments.

For the sake of this countries - and all other nations' children.

Thank you,
