**Subject:** I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.  
**Date:** January-31-19 10:38:02 AM

Dear Minister McKenna,

Some things, by their very nature, need to be preserved and protected including ensuring that all threats are minimized as best can be ensured. Such is the case with Sable island.

Climate change is a threat hard to mitigate with the increasing possibility of rising sea levels. Oil and gas exploration is a potential threat that can be minimized and, actually, totally eliminated simply by declaring a boundary that provides an extensive area of protection.

So, obviously, I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve or anywhere currents could cause damage by the wash from an oil spill..

Thank you,

MBuckingham
