Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 12:24:48 PM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. This is a national treasure that has world wide significance because it is so unique. Enough so that special permission must be obtained before anyone can step foot on the island for fear of putting it's ecological 'balance' and status at risk. The balance is that precarious. Although I am not pleased with any of this general area being considered for exploration of any kind and certainly not for exploitation of the natural resources that may exist there, if it MUST take place, Sable Island most desperately and definitely not be an area under consideration for any kind of interference further than that currently in existance. Sincerely, Etta McFadden, Carman, Manitoba

Thank you,
