Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Canada is traditionally sensitive to potential ecological disasters which will impact all wildlife well outside the local disaster area...and this invitation for oil and gas exploration bids suggests that the government has reversed our Canadian wildlife policies and now acts with total indifference to why the Sable Island National Park Reserve was developed and maintained. Let us see a better and more sensitive approach to where gas and oil prospecting should be encouraged. Wildlife is our responsibility...let us not endanger more wildlife. Let us not follow in the footsteps of the ignorance that exists south of our border. We know better! We are better! Let us show it!

Thank you,
