Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: February-01-19 4:08:01 PM

Dear Minister McKenna,

I do NOT support oil and gas exploration in the waters at or anywhere near stable island. This destruction of the plant for greed is beyond disturbing. 45% of our wildlife is already gone in the last few decades in the name of progress. There are many natural sustainable resources that are available. The corporate government is seen by many, and we all realize that after they have destroyed the earth and all her beings. We can not eat money why can't they see it? Is there minds that focused on business power and money? Please do something for Gods sake!
