Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: February-01-19 3:48:47 AM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. Oil and gas exploration will inevitably cause leaks into the water and air, poisoning wildlife and fish, and causing horrendous clean up problems later on. Do NOT allow yet ANOTHER fossil fuel project pollute our water, air and land and cause harm to wildlife, and humans. We MUST STOP fossil fuel extraction now, and immediately transition to clean energy. You know this, and yet you continue to allow these dirty dangerous projects to proceed. I urge you to deny this fossil fuel extraction project. It is time to invest heavily in clean technology that will protect our water and air from being polluted by fossil fuels. We have less than 12 years to stop global warming, yet fossil fuel extraction in Canada is rapidly growing under Trudeau's watch. You have the right to say no to the PM. Please, do NOT approve yet another fossil fuel project. I just read about the number of abandoned oil and gas wells in Alberta, which would take \$Billions of dollars to clean up. They continue to leak into the soil, pollute the air, and pollute ground water with highly toxic chemicals. We MUST STAND UP to polluters and protect our ecosystems. It is absolutely unacceptable that there are thousands of uncapped wells still leaking poisons into the air and ground water. We are allowing oil and gas companies to walk away without paying a penny. This is YOUR JOB...you are responsible for ensuring that all abandoned wells are capped. But they aren't. We need strong action on protecting our air, water and land, and all manner of life that depend on clean ecosystems to survive. Please - do the right thing and say NO to more oil and gas exploration and well driving in Sable Island National Park Reserve. It is a PARK RESERVE, and its supposed to be protected. Please ensure that it is protected, by not allowing this company to get a permit for oil and gas exploration.

Thank you,

RoxanneStanick
