Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: February-04-19 1:26:47 PM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

What on Earth are you thinking? When are you going to finally practice what you preach when it comes to the environment? Allowing oil and gas exploration in a National Park Reserve is absolute lunacy! I'm starting to regret having voted for your party in the last election. The reason I voted Liberal in the first place was because you promised to stop the expansion of the tarsands pipeline but what do you do? You buy the damn thing for more than 4 billion dollars! You also said that the last election would be the last one decided using the first past the post system. How many more promises are you going to break before the next election. I'm seriously considering voting "Green" from now on. The Green party seems to be the only party that puts the future of the planet and it's inhabitants at the forefront of their policies, and puts the disgraceful fossil fuel industry where it belongs... in the dustbin of history. If you expect my vote next time around you had better mend your ways and keep the promises you made to the Canadian people.

Thank you,
StephenDavenport
