Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

I am a senior and upset that Justin Trudeau for whom I voted seems to give lip service to our values and what we as Canadians want then does not take appropriate action. i.e. using our tax dollars to buy pipelines then unable to carry through. this government has little vision. Because he is having problems building pipelines through BC he now wants to ruin areas in the rest of the country.

I am a BC resident and not adverse to pipelines, there are ways to ensure that pipelines are safe and be transported by flexible pipelines further up the coast that would ensure that ships would not have to be fueled in waters teeming with wildlife nor have to come near Vancouver. Perhaps a different port that ensures a different routing should be researched. Since he spent 5 billion bucks maybe a few more would ensure safety for future generations. Maybe also dealing with companies that care more than just the bottom line.

People are getting dissatisfied with Justin Trudeau's rhetoric and will vote for the conservatives unless some drastic actions are taken even if it means embracing innovative changes.

Thank you,
