Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 10:18:02 AM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

My understanding of Sable Island is that it is a very fragile environment, therefore human access is restricted. How can access by machines and humans in heavy work gear, even be considered?! What happens if oil or gas is found? Will the National Park status be removed and Canada lose another natural treasure?

Exploration in this environment is totally unacceptable!

Thank you,

JoycePotter
