**Subject:** I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.  
**Date:** January-31-19 10:54:50 AM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. I was a student of Oil and Gas in north eastern BC and was witness to spills of methanol (used to break hydrates), and no one really cared. It was all 'if no one saw it didn't happen - the gas must flow'. I'm not an alarmist, I understand that we need natural gas as we are a far north country. We need it to fuel our vehicles and heat our homes. We don't actually get enough sunlight to power everything by solar, but we don't need to put our oceans at further risk. I still haven't heard what has happened with the dumping of sludge in that area from industry. Just pushing garbage and debris further out in the ocean is not a solution, we need a more logical solution rather than destruction and further risks to our oceans.

Thank you,

SuzetteKennedy
