Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Dear Minister McKenna,

I am deeply concerned to learn that you are considering allowing drilling for gas and oil in the waters adjacent to our Sable Island National Park.

Are we so desperate for petroleum that we would risk sacrificing such a unique and pristine island for the perceived need for more carbon to burn?

When will we realize that our very survival as a species depends on burning fewer fossil fuels and investing in more renewable energy.

Thank you,

Syd Dumaresq
