**Subject:** I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.  
**Date:** January-31-19 1:12:01 PM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

The world's climate is changing, fast!

As our Environmental Minister. What do you want your legacy to be?

Canada is a beautiful country and I'd like it to stay that way. I imagine wind farms, solar panels on every house and every bus and car as electric. There are far more jobs being created in sustainability than the oil and gas industry. By choosing to develop and invest in these areas rather than the oil and gas industry, Canada can be a leader worldwide.

So, Minister, please. Stop this exploration and instead invest in environmentally friendly concepts instead. Produce a national electric vehicle subsidy, ban diesel vehicles and certainly enforce that school buses are electric. These things show that Canada does not need oil and gas.

Thank you,

RitchieWall
