Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 9:46:02 AM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. This is a danger for the Island and the sustainability of our oceans and ocean life. Oil and gas exploration in and or near our National Parks is wrong and abandons the whole idea of why we have protected these areas. Focus on the research and development of sustainable energy instead. We can no longer accept the status quo with oil and gas. We have abandoned all ideas of Research & Development in this country to the greed of the energy of oil and gas. It's time for Canada to reassert our place in the science of Research & Development, it's not political it's just smart. Thank you,

AmyQuinn
