Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: February-01-19 7:48:04 PM

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. I was among the first group of tourists to visit Sable Island after it was opened as a National Park and wrote a major travel feature about it so I know from firsthand experience what a remarkable and unique ecosystem it represents. Even then you could not look to the horizon without seeing oil platforms. We all know that oil and gas exploration is the way of the past not the future. The world must change. Gas and oil activities must be curtailed across the board. They absolutely DO NOT belong in Canada's National Parks.

Thank you,
