Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

When will the environment and our living planet come first? I am beginning to believe that humankind deserves the destruction it brings on itself, however, must we take the remainder of the biosphere down with us? Please, step up and put an end to this corporate avarice, before it's too late. We have less than 12 years to prevent unstoppable, devastating human-caused climate change from utterly descimating life on this dying Earth. It's time to divest from fossil fuel. It's time to do what is right.

Sincerely,

One of 7.5 billion humans who have the right to a healthy environment.
