Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

The cautionary principle is certainly applicable in this instance.

Long term thinking is paramount in understanding these issues.

Just because carbon based resources are available doesn't mean that they all need extraction. The carbon based resource economy will by necessity diminish with time and proactive action by responsible leaders. It is time to display strength in protecting all of our other natural resources as exemplified by this National Park Reserve, in particular.

We ask you to make the sustainable decision.

Thank you,
