Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

The Sable Island is a National Parks reserve and should never be included in any exploitation ; further there should be no oil exploration anywhere within 200 nautical miles around the island . We are after all protecting not only the island but the horses that inhabit the island .

Oh yes I know you have loopholes and the like but the people of Canada strongly urge you to re-consider before you make a major mistake. Our national parks mean more than big oils dreams of turning the world into nothing but wasteland . Please stop and re - consider any exploitation of the sable Island or any waters on its proximity our country is precious to all of us not just political greed or Mr Trudeau' s dreams of grandeur.

We must protect the environment !

Thank you,
