Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

I am having difficulty understanding why this is even on the table. We already know we have to transition away from oil and gas. Our politicians should NOT be encouraging or supporting projects of this kind. It should be made clear to local governments, and everyone in the O&G industry that initiatives designed to increase, or even maintain our dependence on fossil fuels are non-starters - especially when a unique natural area like Sable Island would be at risk.

We have 12 years, if that, to turn our world around. Please stop this project NOW.

Thank you,

Debbie MacLeod
