Subject: NO to oil and gas exploration within Sable Island National Park Reserve.
Date: February-01-19 10:18:05 AM

Dear Minister McKenna,

I 100% without a doubt, do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. What point is there to even having national parks, if they aren't truly protected (I hope I don't have to remind the Minister of Environment that this type of activity is A) counter intuitive to acting against climate change, B) would be working against the directive of national parks ((To protect, as a first priority, the natural and cultural heritage of our special places and ensure that they remain healthy and whole.)).

Thank you,

Gavin Friend
