Minister McKenna,

It was with a sinking heart that I heard the news that your government has put out a "call for bids" for gas and oil exploration in the Sable

Island National Park Reserve. In a time of much bad news this has been added to the list by a government that I voted for, and until now,

supported.

I absolutely do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

What part of the designation "Park Reserve" do you not understand?

Thank you,

Judy O'Brien
