Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.

Thank you, There is justice in what we are doing to our children, time to take a long look what oil and gas has done and continue's to do to our planet. We can be an asset or a foe to the children we will all answer for the decision's we make. These area's are not up for bids it is also our lands how can the earth belong to corporations .
