Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. We have been told over and over that it is safe. It is not, oil always leaks and destroys everything, so stop claiming it is not going to destroy Sable Island National Park. Just be honest and say it will probably be a stinking mess but we don't care. That exactly how it always ends, oil spills and you pretend to care. I no longer believe anything the government or politicians say. They always side with those who have the money, always.

Thank you,

Deborah Stephenson
