Dear Minister McKenna,

I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve. There are so very many alternate energies we could be spending the time and money investigating and building ... why are we so stuck on draining this planet of non-renewable resources and endangering, killing and driving to extinction the lives of so many other species?

It is time for a mindset change and that change is coming. Remember, there is no planet B my friend. What are YOU leaving behind for your great-grandchildren?

Thank you,

KailanHollywood
