Dear Minister McKenna,

I strongly oppose oil and gas exploration within Sable Island National Park Reserve. What is the point of creating national park reserves if activities such as oil and gas exploration are allowed to take place on this land. The Canada-Nova Scotia Offshore Petroleum Board should be ordered to exclude the Sable Island National Park Reserve from the area available for exploration. If this doesn't happen, I hope some environmental or nature organization, such as Ecojustice, challenges the inclusion of the park in the area available for oil and gas exploration in court.

Thank you,

Ted Baldwin
