Dear Minister McKenna,

Two months ago I sent an email stating my concerns about the Sable Island management plan increasing unwarranted development on the island. At the risk of being viewed as a squeaky wheel, I will now add that I feel oil and gas exploration in close proximity to Sable Island would be a mistake. Of course I can understand that Stephen McNeil and his government may feel compelled to investigate such economic development opportunities but wrapping a marine conservation area around an existing terrestrial park would be a far greater good in the long term.

Thank you,  
Don McMurtry
