**Subject:** You must NOT support oil and gas exploration within Sable Island National Park Reserve.  
**Date:** January-31-19 1:46:01 PM

Minister McKenna,

As Minister of the Environment and Climate Change it MUST be a part of your position to advocate for the removal of the call for bids for oil and gas exploration near any of our precious land, in particular right now, the Sable Islands.

These unique landscapes house precious wildlife that don't exist elsewhere and are a huge part of the interwoven fabric that makes up our wildly diverse Canada.

Please ensure that this call for bids is exposed and changed as most of the population does not want this exploration to come to fruition.

Thank you,  
Jenny Nourse
