Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 5:06:46 PM

Dear Minister McKenna,

I strongly oppose all oil and gas exploration occurring within Sable Island National Park Reserve. It would be hypocritical of the Government to entertain such a proposal put forth by the Canada Nova Scotia Offshore Petroleum board in putting out a "call for bids". It would appear there are loopholes in the legislation that this would even be considered. Any loopholes in legislation regarding the protection of animals and National Park Reserves need to be closed! Sable Island National Park is a reserve with iconic wild horses that should be respected as a National Park Reserve. The Government should be looking at alternative energy options to reduce green house gas emissions. The oil industry is killing our planet and does not represent the future of our planet.

Thank you,

CherylMcMullan
