Subject: I do NOT support oil and gas exploration occurring within Sable Island National Park Reserve.
Date: January-31-19 11:40:01 AM

Dear Minister McKenna,

I am strongly opposed to oil and gas exploration occurring within Sable Island National Park Reserve. No National Park should ever be subject to resource exploration or extraction. We make Parks in order to protect and preserve for ever , land, habitat, ecology, and natural beauty . Protect designated areas of special, pristine wilderness from the intrusion and inevitable destruction caused by development, especially of purely commercial value.

I find it completely unjust and against all reason that these plots of ocean and Sable Island Park itself have been sent out for bids by oil and gas exploration and for sub-surface drilling. As Minister of the Environment and Climate Change you are responsible to protect this unique environment and uphold the intentions and mandates of a National Park Preserve.

Thank you for your action to stop this.

Thank you,
